BACKGROUND

25X1X6

25X1A2g In [redacted], dated 27 March 1959, "The City of Saratov," p.5, (Item 13) [redacted] mentions a missile or rocket plant and other military factories located in a newly developed industrial area to the northwest of Saratov. There are certain indications which tend to confirm the existence of sensitive Soviet installations in this area. Reinterrogation of this source is requested to establish the following: (1) knowledgeability of the source concerning the missile plant near Saratov; (2) the way in which the source obtained the information; and (3) whether the missile carrier-erector units produced at Plant #292 from November 1952 to the end of 1953 were designed for the missile manufactured at the factory near Saratov. (Refer to previous report from this source [redacted] of 22 May 1958, "Missile Carrier-Erector Mechanism and Trailer Unit Produced at [redacted]" 25X1X6

25X1A2g Priority handling of this requirement is requested if the source can supply further information concerning the missile factory.

(Information in second sentence is "SECRET".)
